Portfolio: marsy.my.id

EDUCATION

Universitas Lampung (2022 — 2026) Bachelor of Informatics Engineering — GPA 3.74

SMAN 1 Kramatwatu (2019 — 2022) Natural Sciences — Final Grade 89.21 / 100

EXPERIENCE

Google Cloud Arcade Facilitator Program December 2024 — January 2025

Google Arcade Facilitator Cohort

- Completed intensive hands-on labs and challenge quests covering Google Cloud Platform (GCP) and Generative AI.
- Mastered cloud resource management, containerized deployments, identity access control, and cloud security best practices.
- Collaborated actively with cohort study groups to solve real-world cloud infrastructure architecture scenarios.

Diskominfosantik Kabupaten Serang June 2025 — August 2025

Back-End Developer Intern

- Developed backend services and RESTful APIs for local government information systems using PHP and Laravel.
- Designed optimized MySQL database schemas and fine-tuned queries for reliable public data access.
- Supported regular maintenance, new feature integrations, and live application deployment in production.

elevAIte with Dicoding February 2025 — June 2025

AI Program Participant (Azure Cloud)

- Specialized in Generative AI architectures and Microsoft Azure services for enterprise-grade AI applications.
- Built cloud-native AI solutions including natural language processing, vector embeddings, and model deployments.
- Successfully graduated through an intensive industry-aligned learning path focused on modern AI engineering.

Bangkit Academy led by Google, Tokopedia, Gojek, & Traveloka August 2024 — January 2025

Cloud Computing Cohort & Capstone Project Lead

- Led the capstone project "Mindcraft" as Project Manager and Back-End Architect across cross-functional teams.
- Architected Google Cloud Platform (GCP) microservices infrastructure and engineered core RESTful APIs.
- Implemented CI/CD pipelines, Docker containerization, and modern software engineering reliability standards.

Freelance & Independent Projects October 2022 — Present

Cloud Infrastructure & Back-End Engineer

- Architected and managed cloud infrastructure (AWS, GCP, Azure, Alibaba Cloud, Linux VPS) for 400+ clients with 2,000+ completed orders.
- Engineered low-latency backend APIs, dynamic reverse proxies, and automated deployment pipelines with high uptime.
- Implemented production Linux security hardening: UFW kernel firewall, brute-force defense, and automated SSL cert management.

SKILLS

Cloud & DevOps: GCP, AWS, Azure, Alibaba Cloud, Docker, Git/GitHub, Linux (Debian/Ubuntu)

Front-End: HTML5, CSS3, JavaScript (ES6+), Tailwind CSS, React

Back-End: Node.js, Express, PHP, Laravel, RESTful API, MySQL, PostgreSQL, Redis

Soft Skills: Technical Leadership, Project Management, Problem Solving, Team Collaboration

CERTIFICATION

CCNA: Enterprise Networking, Security, and Automation (Cisco)	2025	Belajar Back-End Pemula dengan JavaScript (Dicoding)	2025
Belajar Penggunaan Generative AI (Dicoding)	2025	AI Praktis untuk Produktivitas (Dicoding)	2025
Menjadi Google Cloud Engineer (Dicoding)	2024	CCNAv7: Introduction to Networks (Cisco)	2024
Cloud Practitioner Essentials (AWS Cloud) (Dicoding)	2023	PCAP: Programming Essentials in Python (Cisco)	2023
